

First Aid Heartsaver® First Aid Online

Course Covers:

- *First aid basics*
- *Medical emergencies*
- *Injury emergencies*
- *Environmental emergencies*

In recent years, OSHA reports show that approximately 4 million workplace injuries and illnesses occur annually. It is vital for employers to provide their employees and designated first responders with training that will enable them to take immediate and appropriate rescuer action, before professional help arrives.

The Heartsaver® First Aid Online Course is for businesses and other entities that want to provide first aid training to their employees or designated first responders. This course presents the cognitive portion (Part 1) online and offers a blended learning solution for organizations that face obstacles implementing classroom-based training.

Features

- Interactive questions and video segments
- Downloadable student review guide
- Available to users up to 6 months after initial completion
- Part 1 Certificate of Completion is provided and to be presented at Part 2 (skills practice session and skills test) conducted at an AHA Training Center
- Can start, stop and return to online modules as needed
- Product #80-1095
- SRP Price: \$25.00

Benefits

- Convenient alternative to traditional classroom training
- Offers fast implementation with no delays due to classroom scheduling
- Self-paced learning for Part 1
- Effective training, providing instant feedback
- Flexibility to complete online modules at home or work
- Companies can view online employees' progress through Online Key Manager
- Content based on the latest AHA science
